

Ken Shook, LEED AP, BD+C

Partner

Ken Shook is a partner at Longman Lindsey and an acoustical engineer with over a decade of consulting experience. Ken's expertise includes managing projects both large and small across all types, including commercial, mixed-use, residential, and corporate interiors. As a partner at Longman Lindsey, he is committed to the company's philosophy of providing excellent acoustical solutions to fit each client's needs.

Ken has used his experience as both a project manager and principal engineer to aid private companies and public organizations in the design process and management of development projects. He is particularly adept at translating municipal requirements for building glazing and facade design, streamlining the approval process for developers. Ken's focus and collaborative skills yield successful projects.
