

## Nate Perna

### Associate Partner

Nate Perna's professional experience in acoustical engineering encompasses work in the fields of healthcare and laboratory spaces, corporate fit-outs, and residential spaces. He has provided acoustical consulting services for significant hospital and laboratory projects both nationally and internationally. Nate also has experience with educational institutions, performance spaces, and vibration feasibility studies for highly sensitive imaging equipment.

Nate enjoys working on a full spectrum of projects with scopes ranging from single residential units to core and shell design of million plus square foot projects. He is dedicated to deliver a high quality and punctual service to ensure all clients' and end users expectations are exceeded.
